Are you interested in music outreach programs in the Cincinnati Area?

Are you interested in working with elementary students who don’t have opportunities for music?

The CCM Preparatory Department partners with a non-profit organization called Whiz Kids. Whiz Kids is a literacy-based tutoring program that connects adults in the community with at-risk elementary students in Greater Cincinnati.

The Whiz Kids Music program sends three CCM students to an elementary school in the Cincinnati area to lead a weekly, after-school music class. The classes focus on basic music concepts and are designed to create positive experiences for students.
